**PUBLIC HEALTH AND  
SCHOOL NURSING SERVICE  
LINCOLN-WOODSTOCK AREA  
1966**

---

Total house calls—940. This number consists of the following types of visits: Communicable diseases and suspects—36, medical and injury—175, chronically ill—198, pre-natal cases—12, new mothers—15, infants under one month—24, over one month, and pre-schoolers—29, crippled children's service—15, unclassified, i. e. Social Service, Welfare, visits connected with Clinics—400, pre-schoolers to Diagnostic Clinics—9, under therapy—1.

Conferences with State and County Social Service case workers—20, Professional meetings attended—2, Work shops including Medicare, Cancer, Cardiac and Mental Retardation—7.

This year the Free Chest X-ray Mobile came to Lincoln and No. Woodstock. This was for those from 30 years old and over. However, several under 30 years attended, due to health conditions. Two hundred and seven from the towns attended. The X-ray Mobile was at the Franconia Paper Corp. on separate visits, at which time 310 X-rays were taken. The project is through the Communicable Disease Control Program, N. H. State Department of Health and Welfare.

A new program, Diabetis Screening, conducted through the N. H. Department of Health and Welfare, was conducted for both towns. Approximately 400 were screened. This figure includes the employees of the Franconia Paper Corp. I wish to thank the ladies of both towns who willingly helped on these clinics.

Total visits to the three schools, including home visits, in behalf of pupils—240.

Athletic physicals were done on the students of the Junior and Senior High by Dr. Ralph Parker of Fran-

conia and Dr. Charles Althoff of No. Woodstock. Nurses examinations were carried out in the Elementary grades.

The yearly Tuberculin (Heaf) test was done in grades one and four, in the Elementary schools, grades eight and eleven in High School. Questionable results are followed up by chest X-rays. Several of the school personnel took advantage of this test. These programs are sponsored by the N. H. Tuberculosis Association.

Through the sponsorship of School Health Service, N. H. State Department of Health and Welfare Booster shots for the prevention of Tetanus and Diphtheria were given again this year, to those in grades one, four, eight and twelve.

To the various organizations in the area, the Lodge of Elks and Emblem Club of Littleton, the teachers and pupils of Lin-Wood High School, I extend my sincere thanks for their assistance on the Christmas project.

In order to give Visiting Nurse services to those who come under the Medicare Program, it was necessary to form a health group or an association.

This has been accomplished and is called the Lincoln Public Health Nursing Association.

The officers are as follows:

President, Roger Stewart  
Vice-President, Mrs. Robert MacKay  
Treasurer, Robert Russell  
Secretary, Mrs. Bruce Chase  
Director, Nora E. Parent, R. N.

Respectfully submitted,

## REPORT OF FOREST FIRE WARDEN AND DISTRICT CHIEF

---

Fire records are made by people — those who cause fires and those who control them. Your forest fire warden, deputy wardens, fire chief and firemen have, in spite of a prolonged drought, made one of the best fire control records in recent years. Despite a very dry spring, we in New Hampshire working together, have substantially reduced our fire incidence (885 in 1965 to 595 in 1966).

This enviable record is largely due to two factors:

1. A closely coordinated and integrated state-town organization jointly carrying out programs of forest fire prevention training, and suppression with dedicated personnel.
2. Your appreciation of our forest fire control program and your individual effort in practicing fire prevention.

Statistics show, however, there is room for improvement. Major problems are still with us; (1) the careless disposal of cigarettes; (2) the householder's carelessness in burning rubbish; (3) the failure of woodlot owners and contractors to completely extinguish their brush burning fires; (4) failure to extinguish camp fires; (5) unsupervised children playing with matches.

New Hampshire has 4,339,000 acres of woodland to be protected. In 1966 we experienced 595 forest fires in this area and restricted acreage burned to 395 acres — a fine testimonial to the efficiency and dedication of the men who make up our forest fire control organization.

1. If you must burn you will need a permit. Permits are not issued between 9:00 A. M. and 5:00 P. M. except on rainy days. Permits are not needed when the ground is covered with snow. To minimize risk the best way to dispose

of rubbish is at your authorized town or municipal dumping area.

2. Be sure all discarded smoking material is out.
3. Don't leave a live camp or cooking fire.
4. Most important — Instruct your children that matches are not play things.

TRULY — ONLY YOU CAN PREVENT  
FOREST FIRES

**Fire Record for 1966**

There were no Forest Fires within the Town this past year. We have issued 96 Forest Fire Permits during the year. Keep Your Town GREEN without Unlawful Burning.

Received and answered 15,000 individual inquiries which represents an increase of more than one hundred per cent over last year.

Wrote sixteen news releases for the use of local media and five newsletters to the members, promoting economic development ideas in the region.

Supported the 4-H awards program to encourage development of agriculture.

Assisted in programs of natural beauty and good land-use practices.

Presently we are initiating a program of ski area engineering research to combat the snow erosion problems at ski areas.
